

GitLab

GitLab is complete platform for development and collaboration. GitLab is a single application for the entire software development lifecycle. From project planning and source code management to CI/CD, monitoring, and security. And more.

We are running GitLab Community Edition. Some features of Enterprise Edition are unavailable here. Also not all functions are turned on. In case of questions or requests contact [administrators](#).

- **Web interface:** <https://git.sorbus.ibot.cas.cz/> (alias <https://gitlab.ibot.cas.cz/>)
- [Explore publicly accessible projects](#)
- [About GitLab](#)
- [GitLab user help](#)
- [Git quick start](#)
- [Git book](#)
- [Administrators](#)

GitLab is running on [dedicated virtual server](#).

Login options

Users can login using credentials of Institute of Botany, CAS; or by local „standard“ accounts created by GitLab admins.

Institute of Botany domain

As **Username** use your Institute of Botany domain name (typically name.surname) or e-mail (typically name.surname@ibot.cas.cz). **Password** is same as for <https://outlook.office.com/mail/> and another institutional electronic tools. Everyone having institutional account can immediately login and start using our GitLab.

"Standard" login for another users

„Standard“ accounts are manually created by [administrators](#). Use your personal credentials. Such accounts can be created upon request by [administrators](#) for anyone anyhow cooperating with the Institute of Botany, Czech Academy of Sciences.
