

Administration and support

Plenty of questions can be discussed in [e-mail conference](#) cluster-ibot (at) metacentrum (dot) cz — unless the question is too specific, it is better to ask in the e-mail

conference than directly contact admins.

- The cluster is managed by administrators of the [MetaCentrum](#). Regarding general problems related to computation, application etc. please use the [MetaCentrum help support](#).
- Specific questions related to the Průhonice cluster, e.g. issues connected with the usage of the database server, should be addressed to cluster administrators [Vojtěch Zeisek](#) and [Yann Bertrand](#).
- If you desire to join the ibot group, create or modify shared folder and change your allowed disk space on the [disk storage](#), please contact Vojtěch Zeisek.
- Questions related to Apache Hadoop, Spark, NoSQL databases (Neo4j and MongoDB) and other issues specific computing on the HPC nodes should be directed to Yann Bertrand.
- With questions and requests about [GitLab](#) contact Vojtěch Zeisek, alternatively [Jan Panoch](#).
- **All requests or questions regarding cluster and related tasks send to Vojtěch Zeisek and Yann JK Bertrand exclusively to cluster (at) ibot (dot) cas (dot) cz.**

Event calendar

Events related to the cluster (e.g. shutdowns or seminars) can be seen in [public calendar](#) (ICS).

Cluster calendar can be added in [institutional webmail](#) after clicking to calendar, adding calendar from directory and searching name **cluster**. It will then be displayed among other calendars of the user.
